

OVERSIZED CARGO CONTROL

Ancra's G100 chain assembly helps to easily secure oversized equipment or cargo.

Features:

- Heat treated high carbon alloy steel
- Rugged black lacquer finish
- Blue powder coated clevis grab hooks on both ends
- Stamped aluminum Working Load Limit tag
- Complies with NACM standards
- 10 ft assembly length
- Individually UPC coded, packed in heavy duty cardboard box
- 100% proof tested to 2x the Working Load Limit

Benefits:

- 33% higher Working Load Limit than equivalent G70 chain
- 10 ft length perfect for 4-point tie-down applications
- Higher rating potentially reduces number of tie-downs needed for larger equipment

Part Number	Unit Weight	WLL	Assembly Size	Package Size	UPC
50529-11-10-BX	19 lbs	8,800 lbs	3/8 in x 10 ft	8" x 5.5" x 5.5"	0 92888 42058 2

Ancra Grade 100 chain is not for overhead lifting
