No 6,939,095 & 7,090,449

WLL 5500 lbs

TURN STAKE POCKETS INTO ANCHOR POINTS

We have created a way to turn standard stake pockets into solid anchor points for securement straps. Our DOT and FMCSA compliant 3-Bar PortaWinch and PortaAnchor offer a versatile system that allows you to position the tie down straps anywhere along either side, front or back of the trailer, using stake pockets that best accommodate your load.

VERSATILE

PortaAnchor accepts straps with flat hooks & straps with chain anchors.

Installs easily with patented spring-loaded front hook design that distributes the load evenly across the stake pocket. Cap has 4 holes & accommodates standard winch bars.

EASILY INSTALLED

Installs easily without tools - over tires & toolboxes.

For use with standard winch straps and tensions with standard winch bar. Fits all standard stake pockets.

NOTE:
Will not fit tapered stake pockets.

REMOVEABLE WHEN NOT IN USE
